Organizer

Federal Executive Board Events

The Federal Executive Boards (FEBs), established by Presidential Directive in 1961, are a forum for communication and collaboration among Federal agencies outside of Washington, DC. The need for effective coordination among the field activities of Federal departments and agencies was then, and is still, very clear. Approximately 85 percent of all Federal employees work outside the National Capital Region. Federal programs have their impact largely through the actions of the field representatives of the departments and agencies. In addition, Federal representatives are the principal contact with the Federal Government for the citizens of the United States. The National network of 28 FEBs, located in areas of significant Federal populations, serves as the cornerstone for strategic partnering in Government.

From this point on you will have 15 minutes to complete your registration or you will be logged out and your information will be lost.
